

L&D Program Management

ARJUN BHATTACHARYA

Problem Statement

The mid sized company wants to provide opportunities for its employees to upskill themselves by attending workshops or taking online courses. However, the current process for requesting, approving, and reimbursing for these activities is inefficient and time-consuming. As a result, many employees are discouraged from pursuing professional development opportunities, which could lead to a lack of up-to-date skills and knowledge within the organization. The company needs a streamlined and user-friendly system to facilitate employee development.

➤ *I have used double diamond method (discover, define, develop, deliver) using convergent and divergent design thinking while empathizing with the users in discover phase and define phase to come up with product and service which will benefit all the stakeholders*

Problem Statement (Discover)

Employees, managers, and the finance team need a streamlined and transparent system to handle upskilling requests, approvals, and reimbursements because the current process is inefficient, discouraging, and prone to delays.

Employees (Primary Users):

- **Problems:**
 - Lengthy request submission processes.
 - Lack of clarity on approval status and reimbursement timelines.
 - Discouragement due to the tedious nature of the process.
- **Needs:**
 - A simple, fast way to submit requests.
 - Clear communication on request status.
 - Confidence in timely reimbursements.

Managers (Approvers):

- **Problems:**
 - Manual, disorganized requests lead to inefficiency.
 - No visibility into budgets or relevance of requests.
- **Needs:**
 - A consolidated dashboard for reviewing and approving requests.
 - Budgetary insights to make informed decisions.

Finance Team (Reimbursement Processors):

- **Problems:**
 - Paper-heavy or email-based processes causing delays.
 - Difficulty in reconciling reimbursement claims with approvals.
- **Needs:**
 - An automated system linking approvals with reimbursements.
 - Seamless tracking of processed and pending reimbursements.

Insight (Define)

Through stakeholder interviews, observations, and surveys, we discover:

1. Employees avoid training due to the cumbersome process, leading to skill stagnation.
2. Managers and the finance team are overwhelmed by inefficiencies in their workflows.
3. The lack of a centralized system is a root cause of delays and communication breakdowns.

Pain Points Summary:

1. Time-consuming processes discourage employee participation.
2. Approval workflows lack transparency and structure.
3. Reimbursement tracking is disjointed and error-prone.

Empathy Map (Define) – For Employee

Key Insight Employees need a simple, transparent system to make upskilling easy and stress-free.

What do they SAY?

"The process takes forever—I don't even bother anymore."

"I'm unsure if my request will even get approved."

"Reimbursements are such a hassle. I always have to follow up."

What do they THINK?

"Is it even worth going through all this trouble for a course?"

"This company doesn't prioritize employee growth."

"I might have to pay out of pocket because the process is unclear."

What do they DO?

Submit requests only for mandatory training or avoid training altogether.

Reach out to colleagues for help navigating the process.

Forget to follow up or abandon requests mid-way.

What do they FEEL?

Frustrated with the inefficiency and lack of support.

Demotivated to pursue upskilling opportunities.

Worried about losing relevance in their roles.

Empathy Map (Define) – For Manager

Key Insight - Managers need an organized workflow with better visibility into budgets and course relevance.

What do they SAY?

"I'm spending too much time approving these requests."

"Why isn't there a single system to track everything?"

"I'm unclear about budget limits for these approvals."

What do they THINK?

"Am I approving the right courses for my team's growth?"

"I hope this reimbursement aligns with the training budget."

"Why are some employees submitting irrelevant requests?"

What do they DO?

Manually review requests through emails or spreadsheets.

Delay approvals when the process is unclear or redundant.

Rely on informal communication for clarifications.

What do they FEEL?

Overwhelmed with the administrative burden.

Annoyed at the lack of visibility into budgets or policies.

Responsible but unsupported in driving team development.

Empathy Map (Define) – For Finance team

Key Insight - Finance teams need automation to reduce manual errors and ensure timely reimbursements.

Persona (Define) – Employee

Name: Riya Sharma (Marketing Specialist – Age – 28)

Bio:

Riya is a highly motivated professional who values personal growth and skill enhancement. She loves exploring new tools and methods to improve her marketing strategies. Riya spends her weekends reading about trends in digital marketing and occasionally attending webinars.

Persona (Define) – Manager

Name: : Anil Menon (Senior Manager – Age – 40)

Bio:

Anil is a team-oriented leader managing a group of 10 developers. His priority is delivering projects on time while ensuring his team remains skilled and motivated. He often juggles technical decision-making and administrative tasks.

Persona (Define) – Finance Team

Name: : Shruthi Verma (Account Manager – Age – 35)

Bio:

Priya is responsible for managing reimbursements and maintaining financial records. She enjoys working in a structured and organized manner. However, the manual nature of her current workload leads to frequent stress and overtime.

Product Value proposition (Define)

Products & Services

- **Centralized Platform:** A unified portal for request submission, approvals, and reimbursements.
- **Approval Dashboard:** Managers get clear summaries with budget insights and policy guidance.
- **Automated Workflows:** Finance processes reimbursements seamlessly, linking approvals to payments.
- **Real-Time Updates:** Notifications for request status ensure transparency for all.

Gain Creators

- **For Employees:** Encourages participation in upskilling opportunities with a hassle-free process.
- **For Managers:** Saves time, improves decision-making, and enables team growth.
- **For Finance Team:** Boosts efficiency, ensures accuracy, and fosters employee satisfaction through timely reimbursements.

Pain Relievers

- **For Employees:** Eliminates tedious manual submission and uncertainty in request status.
- **For Managers:** Reduces administrative burden and ensures compliance with budget and policies.
- **For Finance Team:** Removes repetitive, manual reconciliation tasks and delays in processing claims.

MVP (Develop)

Core Features of the MVP

1. Centralized Request Portal

- Employees can submit course/workshop requests through a simple, user-friendly interface.
- Includes essential fields: course name, cost, duration, and justification.
- Automated notifications for request status updates (e.g., "Submitted," "Under Review," "Approved," "Rejected").

2. Approval Workflow

- Managers receive requests in a consolidated dashboard:
 - See details like employee role, course relevance, and budget impact.
 - Approve or reject requests with a single click.
- Finance team gets approved requests automatically for reimbursement processing.

3. Real-Time Budget Tracker

- Displays training budgets for managers and finance in real-time.
- Ensures transparency and prevents overspending.

4. Automated Reimbursement System

- Approved requests link directly to finance workflows.
- Employees receive status updates on reimbursement progress.

5. Policy Integration

- Built-in guidelines for managers (e.g., course eligibility, maximum cost per request).
- Reduces ambiguity and ensures compliance with organizational policies.

Key Metrics to Measure Success

1. **Adoption Rate:** Percentage of employees using the portal to submit requests.
2. **Approval Turnaround Time:** Reduction in time taken for managers to approve/reject requests.
3. **Reimbursement Time:** Average duration from course completion to reimbursement.
4. **Employee Satisfaction:** Feedback surveys on ease of use and process transparency.
